Allowances

Where the recipient is obliged to spend at least one night away from his/her usual place of residence on business and the accommodation to which that allowance or advance relates is in the Republic and the allowance or advance is granted to pay for—

- meals and incidental costs, an amount of R303 per day is deemed to have been expended;
- incidental costs only, an amount of R93 for each day which falls within the period is deemed to have been expended

Where the accommodation to which that allowance or advance relates is outside the Republic, a specific amount per country is deemed to have been expended. Details of these amounts are published on the SARS website under Legal & Policy / Legislation / Regulations and Government Notices / Income Tax Act, 1962

Travelling allowance

Rates per kilometre which may be used in determining the allowable deduction for business-travel, where no records of actual costs are kept are determined by using the following table.

Value of the vehicle (including VAT) (R)	Fixed cost (R p.a.)	Fuel cost (c/km)	Maintenance cost (c/km)
0 - 60 000	19 492	73.7	25.7
60 001 - 120 000	38 726	77.6	29.0
120 001 - 180 000	52 594	81.5	32.3
180 001 - 240 000	66 440	89.6	36.9
240 001 - 300 000	79 185	102.7	45.2
300 001 - 360 000	91 873	117.1	53.7
360 001 - 420 000	105 809	119.3	65.2
420 001 - 480 000	119 683	133.6	68.3
exceeding 480 000	119 683	133.6	68.3

Note:

- 80% of the travelling allowance must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- No fuel cost may be claimed if the employee has not borne the full cost of fuel used in the vehicle and no maintenance cost may be claimed if the employee has not borne the full cost of maintaining the vehicle (e.g. if the vehicle is the subject of a maintenance plan).
- The fixed cost must be reduced on a pro-rata basis if the vehicle is used for business purposes for less than a full year.
- The actual distance travelled during a tax year and the distance travelled for business purposes substantiated by a log book are used to determine the costs which may be claimed against a travelling allowance.

Alternatively:

- Where the distance travelled for business purposes does not exceed 8 000 kilometres per annum, no tax is payable on an allowance paid by an employer to an employee up to the rate of 316 cents per kilometre, regardless of the value of the vehicle.
- This alternative is not available if other compensation in the form of an allowance or reimbursement is received from the employer in respect of the vehicle.

Other deductions

Other than the deductions set out above an individual may only claim deductions against employment income or allowances in limited specified situations, e.g. bad debt in respect of salary and premiums on certain income protection policies.

Fringe Benefits

Employer-owned vehicles

- The taxable value is 3.5% of the determined value (the cash cost including VAT) per month of each vehicle. Where the vehicle is the subject of a maintenance plan when the employer acquired the vehicle the taxable value is 3.25% of the determined value.
- 80% of the fringe benefit must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- On assessment the fringe benefit for the tax year is reduced by the ratio of the distance travelled for business purposes substantiated by a log book divided by the actual distance travelled during the tax year.
- On assessment further relief is available for the cost of licence, insurance, maintenance and fuel for private travel if the full cost thereof has been borne by the employee and if the distance travelled for private purposes is substantiated by a log book.

Interest-free or low-interest loans

The difference between interest charged at the official rate and the actual amount of interest charged, is to be included in gross income.

Residential accommodation

The fringe benefit to be included in gross income is the greater of the benefit calculated by applying a prescribed formula or the cost to the employer

The formula will apply if the accommodation is owned by the employer, or an associated institution in relation to the employer, or under certain limited circumstances where it is not owned by the employer.
